

## Congratulations

Today we thought we would bring you a page of success. Our students have had a variety of interesting and inspiring opportunities with some high achievements, in a range of areas.

Congratulations to the following students:

- Keela Matthews has been selected to attend a Canterbury University Women in Engineering Week in January.

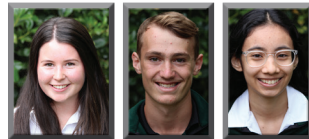

- Asha Stevenson finished mid-field in an online Chess Tournament, involving students from around the world.

- Nina Menegatti Zink has been selected to attend the Otepoti Ocean Youth Programme, at the Otago University New Zealand Marine Studies Centre, in December. This is a programme to educate young people about the ocean.

- Emma Britton, Jake Tither and Legy Puyat have selected for the Hands-On Science Week at Otago University in January.

- Taisei Shimizu has been selected for the National Science and Technology Forum at Auckland University in January.

## Ex Student Success

Dyani Shepherd-Oates heaved her way into the record books at an Athletics Otago event recently. Below is the write up from the Otago Daily Times.

*"The 20-year-old broke her previous Otago age-group record with three of six Hammer throws at the interclub meeting at the Caledonian Ground. The last of her six throws was an impressive 53.18m effort – almost 3m better than the 50.50m record she held going into the meeting. Only four women have thrown the hammer further in New Zealand this year, so Shepherd-Oates continues to climb her way up the rankings."*

Well done Dyani. We continue to watch all your milestones, in the sport you love, with great interest and pride.

## Southland Primary Athletics

### Southland Primary Schools' Athletic Championships

10 Year Old Girls	Olivia Spencer	5th - 1500m Run
